MOAA

A Little Planning. A Lasting Gift of Care.

Survivor Planning Guide

When someone we love is lost, even the simplest next step can feel overwhelming.
Preparing now can give your family a place to begin.

Record your wishes, identify important documents, and list the people and organizations your family may need to contact.

Our downloadable, fillable guide includes military and family contacts, personal wishes, and practical checklists.

Fill it in. Save it privately. Share its location with someone you trust.

Take one gentle step at a time.
